## DETAILED ACTION

*Claim Rejections - 35 USC § 112*

1. Claims 1-35 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention. Regarding claims 1, 26, 27 and 34, the claim limitation "continuously transmitting to the wireless device for allowing a user to locate an alternate communication mechanism after the failure has occurred" fail to comply with the enablement requirement. For example, if a wireless device has a failure (i.e. the wireless device is broken or a receiver is broken), how would it receive an alternate communication mechanism from a base station or service provider. Regarding claims 27 and 35, the claim limitation "a method for locating an alternate communication mechanism in case of a failure of a wireless device, comprising: forwarding said information to said wireless device of said user" fail to comply with the enablement requirement. For example, if a wireless device has a failure (i.e. the wireless device is broken or a receiver is broken), how would it receive an alternate communication mechanism from a base station or service provider.
